13 March 1978

Mr. Lapham,

STAT [redacted] (in your research/library unit) asked me to provide you with material related to question I asked her this morning. Dan Gilmore, UPI, asks several questions about the attached item, one of which is: "Are Americans, especially former U.S. intelligence officers, prohibited by law from working for a foreign intelligence service?" We are not providing Mr. Gilmore with any information on [redacted] but I would like to determine whether any law or regulation fits the description outlined by Gilmore. If we do find anything on this subject, do you have any problems with passing it to Gilmore? I have been in touch with [redacted] DDO, on this subject, and he agrees that we will have nothing to say about [redacted]
